

Every American Should Know...

- 750 Americans have had breakthrough infections. They had been vaccinated but they have still died from COVID-19.
- Over 6,000 americans have died as a result of the vaccine.
- Over 5,000 have suffered permanent disability as a result of the vaccine.
- 82% of women who have received the vaccine in their first trimester have lost their unborn children.
- Many tens of thousands of people have suffered horrible side effects due to the effect of these vaccines.
- The vaccine studies that led to the Emergency Use Authorization did NOT show a statistically significant reduction in deaths due to COVID-19.
